

School Improvement priorities 2019 /2020

Based upon our outcomes and school evaluation we have identified the following main priorities for the academic year:

1	Ensure a return to the previously high levels of achievement at the end of KS 1 in 2020.
2	Ensure our curriculum is ambitious and designed to give all children the knowledge, self-belief and cultural capital they need to succeed in life.
3	Ensure the school has a fully embedded set of shared Core Values, which are consistently reflected in the language, attitudes and behaviours of every member of the school community.
