

# Miss Caughey

## Newton (Year 3)

### About me...

Hi all! I am Miss Caughey and I absolutely love my job as a teacher! I have recently moved to Redditch and love walking in the open countryside there and visiting the local shopping centre! Recently, I have started baking. I've had lots of time to perfect my favourite recipe, chocolate brownies with rainbow sprinkles ☺ I also enjoy going to the gym and attending martial art group classes. During the school holidays, I try and do lots of travelling. I enjoy visiting famous landmarks. My favourite subjects are Maths, History and Computing.

### Something to look forward to in Year 3...

Our playground is newly decorated and has lots of different games marked on the ground. You could take part in racing games with your friends or play hopscotch and 'Duck, Duck Goose'. I used to love these games when I was at primary school! We have a Phiz Lab for Science lessons where there are many resources and lots of space so that you can really enjoy taking part in Science investigations with your friends. We also have an exciting range of computing equipment including iPads and Chromebooks ☺

### I enjoy teaching because...

I really enjoy the variety of subjects that I get to plan and teach. Every day is different so my job is very fun and interesting. I love getting to know my pupils throughout the year and learning about their hobbies and interests. It is also such a joy to see beaming smiles when something new has been learnt! ☺

### My top tips for Year 3...

- Get to know as many of your peers as you can, even if they are not in the same class
- Try your hardest- that will always be good enough!
- Have a go at trying new things, you may realise that you have more interests than you first thought
- Be kind, forgiving and honest ☺
