

Name: Mrs Nightingale

I work in year 3

About me...

I enjoy doing a whole list of things, some of these are; gardening, baking, sewing, painting, walking and reading.

I have two sons at university and we enjoy our travelling.

What makes year3 great....

Science lessons are practical and great fun. You get to wear goggles, and a white jacket when carrying out investigations so you look like a proper scientist! Everyone has their own pencil case and you have free time to go to the library and choose your own library book. There's lots of fun to be had on the adventure playground at break and lunch times.

Why I love working in school...

The teachers, staff and children are all wonderful to work with. I enjoy seeing smiling faces from the children and watching them grow into responsible people. It gives me great satisfaction to see children progress throughout the year and I love helping them to achieve their goals.

I'm here to help you with ...

Maths is one of my favourite subjects and I will support you with this. I will also help you with reading and writing. We will also have fun doing some of the art projects.

I'm here to listen to you if you have any worries or problems.
