

Mrs Ward

Anning (Year 3)

About me...

Hello, my name is Mrs Ward and I am a teacher in Anning Class. I have been teaching in Year 3 for four years now and I really enjoy it. My favourite subjects to teach are English, Art, Maths and Geography. In my spare time I like to keep fit and enjoy cycling and walking. I also like gardening and this year, I have grown herbs, tomatoes and strawberries.

Things to look forward to in Year 3...

You can look forward to having lots of fun at Junior School, with exciting lessons and activities, including trips to Birmingham Airport and the Transport Museum. You will become more independent, for example, having your own pencil case and being able to choose your own reading book from the library. In science lessons, you can be a real scientist wearing your own lab coat and goggles to carry out experiments in the Phiz Lab! There are maths and English lessons each day but we also have art, PE, humanities, music, PSHE and computing lessons each week too! We have an adventure playground outside which can be used at break times and lunch times. We have Worship in the hall most days and also a weekly Merit Assembly, where you can be awarded a Merit Certificate for good work or best behaviour.

Why I enjoy teaching...

I enjoy teaching because I love helping children to become more independent and supporting them to always try their best in all they do and to overcome any challenges. It is also exciting and lots of fun and each day is different.

My top tips for Year 3:

- Enjoy every day.
- Listen carefully in lessons and always try to do your best.
- If you have a problem or are worried always ask an adult for help.
- Be organised with your equipment.
